Introduction to the Scheme

The Childcare Business Grants scheme is part of a number of government reforms aimed at increasing the choice of flexible high quality childcare for working families, in support of the Government commitment to give working parents 30 hours a week of funded childcare. The Government recognises that the availability of good quality, affordable childcare is key to enabling parents to work – both to support their families and to realise their career ambitions. Therefore, this scheme aims to encourage new childminding businesses that are committed to offering the 30 hours funded entitlement in England.

The scheme awards the following one-off start-up grants to new childcare businesses:

- £500 for childminders or childcare providers on domestic premises registered on the Early Years Register (EYR)
- £1,000 for childminders or childcare providers on domestic premises registered on the EYR who will be looking after children with special educational needs or disabilities (SEN/D).
